Head, Climate Early Warning
and Capacity Building Unit
Jochem Zoetelief
Nairobi
KENYA

**Post-project equipment operation and maintenance and staff commitment letter for
“Strengthening Climate Information and Multi-Hazard Early Warning Systems for
Increased Resilience in Azerbaijan”**

Dear Jochem Zoetelief

I am writing to express the commitment of Azerbaijan to supporting the “Strengthening Climate Information and Multi-Hazard Early Warning Systems for Increased Resilience in Azerbaijan” project that is proposed to the Green Climate Fund (GCF) for funding approval.

This letter confirms that the National Hydrometeorological Service (NHMS) of Azerbaijan will ensure the operation and maintenance of observing equipment procured for Azerbaijan under the abovementioned project after its implementation for the lifetime of the equipment, up to a period of 20 years. Furthermore, the NHMS will sustain the functions of the local consultancy positions related to hydrometeorology and climate services beyond the implementation period of the project.

Sincerely,

Head of National
Hydrometeorological Service

Nazim Makhmudov
