As GCF nears the end of its first programming period 2020-2023 (GCF-1) and is undergoing replenishment for its next programming period (GCF-2), the Strategic Plan reflects the urgency of the climate crisis and the organisation's growth and maturation in becoming even more transformative and accessible.</i></p> <p><i>The Strategic Plan sets out GCF's major programming directions for GCF-2, capturing the ambition to deliver both strengthened climate results and greater access for developing countries as the world heads into a critical decade for global climate action.
