

# Action Plan!

Orville Grey  
Regional Manager - Caribbean  
Green Climate Fund

- **Enhanced planning**

- Move to a medium-term readiness planning horizon; 11 Country Programmes to finalise
- AE mapping for priority pipeline projects/programmes

- **Provision of technical support**

- To support development of readiness proposals
- To support CN development through Readiness
- Technical support to strengthen after official submission
- PPF; roster of firms; project development consultants

- **Fit for purpose accreditation**

- Need to consider accreditation scope of entities to support a pipeline
- Need to consider how entities can partner to support a pipeline

- **Continued Dialogue**

- With the GCF – challenges encountered; reporting; pipeline planning (including on project ideas)
  - Moving from project idea to CN
  - Moving from CN to FP
  - Understanding timeline and opportunities for sequencing e.g. early check before completion of a PPF to ensure maximum use
- With regional support mechanisms and partners
  - To address common challenges e.g. capacity building, training; data building;
  - Community of practice for Caribbean SIDS and for DAEs
