Integrated climate frameworks

- **Leveraging NDCs** to promote integrated policy planning between climate action, sustainable development and Covid-19 recovery measures
- **Translating and implementing NDCs** through financing strategies and investment plans – e.g., Saint Lucia

Accelerating Innovation

- Increase **access to climate finance** without increasing countries debt burden (risk transfer mechanisms, green/ resilient/ sustainability bonds, debt swaps, SDR general allocation, etc.)
- Example: Debt-for-climate swaps (Antigua and Barbuda)

De-risking investment : Making blended finance work better for Adaptation and the most vulnerable countries

FP152: Global Subnational Climate Fund (SnCF Global)

GCF funding: USD 150 million
Total project funding: USD 750 million
Accredited Entity: Pegasus Capital Advisors

Mitigation

42 countries

Other case studies

FP180: Global Fund for Coral Reefs Investment Window

GCF funding : USD 125.0 million
Total project funding : USD 500 million
Number of beneficiaries: 35.2 million

FP181: Catalytic Capital for First Private Investment Fund for Adaptation Technologies in Developing Countries (CRAFT)

GCF funding: USD 100 million
Total project funding USD 400 million
Number of beneficiaries: 39 million

Strengthening domestic financial institutions

- Supporting Jamaica to establish the **first Caribbean exchange for green bonds** to enable governments and firms to access international capital markets
- Developing green banks/climate facilities
